

Earth Day 2022

Thank you for working with a brand that's committed to sustainability.

At Shred-it, our information destruction services ensure the security and integrity of private and confidential information. Our work with organisations supports a circular economy and we're proud to provide a valuable source of paper for recycling into high-demand products. We are committed to constantly learning, developing, and considering the ways that we can reduce our impact on the planet.

Impact estimates assume full containers for services as containers are not individually weighed and fill levels not tracked. Calculations are based on 1.1 billion pounds of paper recycled globally by Stericycle in 2021: <https://www.stericycle.com/en-us/about-us/our-stories/2021-corporate-social-responsibility-report>; and Paper Recycling Facts: <https://www.usi.edu/recycle/paper-recycling-facts/> accessed April, 2022

To learn more about Shred-it's environmental compliance and best practices for information security, visit shredit.co.uk or call 0800 197 1164.

We protect what matters.
