Storing up Trouble

National Statistics [1] say:

23%

UK adults work at home and their office

15% of people only worked from home.

A Shred-it survey [2] reveals:

43%

of respondents said it was their employers responsibility to destroy and recycle paper when working remotely.

45% said it was their own responsibility.

34%

of respondents said they shred and recycle the paper they use when working outside their office

18% of respondents don't recycle shredded work documents when at home and/or just put documents in the bin.

88%

of respondents said they deal with confidential papers.

24% do not always follow their workplace policy on destroying confidential information when working from home.
