

UK BUSINESSES THAT...

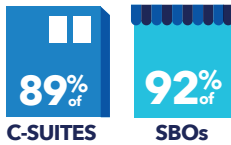

Have employees who work remotely:

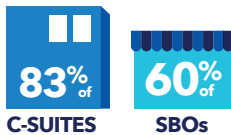

Believe remote work will become even more important in the next five years:

Trust their employees are doing everything they can to safeguard sensitive physical/digital information while off-site:

Agree the risk of a data breach is higher when employees work remotely:

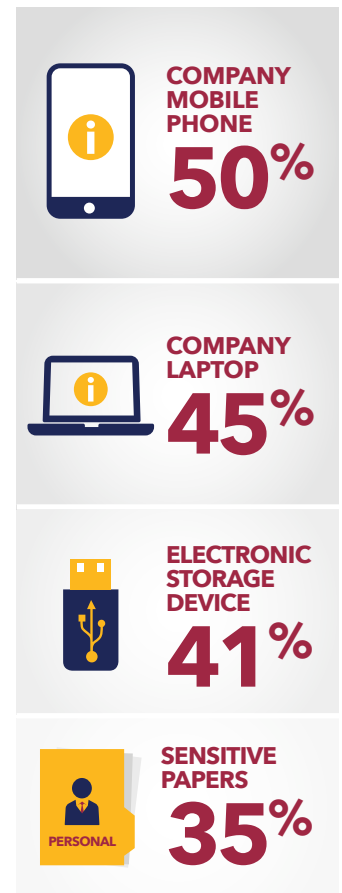

REMOTE WORK EXPOSES BUSINESSES TO RISK

Employers must take steps to protect against breaches when employees take sensitive data off-site.

Sensitive items lost or stolen while employees were working off-site (according to C-Suite bosses):

ALL SECTORS MUST PRIORITISE DATA PROTECTION

Consumers say data protection is important when choosing:

Which bank to use

86%

Which legal firm to hire

79%

Their place of employment

76%

From which dealer to buy a car

70%

At which hotel to stay

69%
